Graduate Student Worker—Knoxville Homeless Management Information System

The College of Social Work's Knoxville Homeless Management Information System (KnoxHMIS) seeks to hire a research assistant (20 hours per week) to assist in community engagement, data analysis, and reporting of the coordination of care and services delivery outcomes for individuals and families experiencing homelessness.

We anticipate funding of this position from January 2021 through May 2022. **Note: there is no tuition waiver associated with this position.**

Information about KnoxHMIS is available at [knoxhmis.sworpswebapp.sworps.utk.edu](http://knoxhmis.sworpswebapp.sworps.utk.edu). Also, see the [Community Dashboard](http://knoxhmis.sworpswebapp.sworps.utk.edu).

**Ideal Qualifications**

- practice experience and ongoing graduate education in human services, social work, public health, or psychology
- demonstrable skills in data management, multivariate statistical analysis, and graphical representation of information
- a background and experience in working with community human services organizations
- the ability to work constructively with an interdisciplinary team
- strong job references

**Application**

Potential candidates meeting the criteria above should contact Professor David Patterson ([dpatter2@utk.edu](mailto:dpatter2@utk.edu)). Please attach a CV or resume to your initial email.
